Tosif Raza

Full-Stack JavaScript Developer

Kolkata, India | razatosif206@gmail.com
github.com/TosifRaza | tosif.site

PROFILE

I build web applications with React, Node.js, Express and MongoDB. My projects explore inventory management, e-commerce, service marketplaces and content-managed portfolios.

EXPERIENCE

Jr. Web Developer (Backend)

RIZ Software Consultancy
2026-09-16 - Present | Kolkata
Working as a Junior Web Developer focused on backend development.

Data Science with Python Intern

AICT Pvt. Ltd. (Anovatech Institute of Crystalline Technology Pvt. Ltd.)
2026-06-08 - 2026-07-08
Completed a 60-hour internship in Data Science with Python, covering data preprocessing, exploratory data analysis, visualisation, feature engineering and machine learning model evaluation.
Built a Fake News Detection training project using natural language processing, TF-IDF and a trained classifier.
Completed the associated industrial training course with O grade (above 90%, as defined on the certificate).

Web Development Intern

Web Guru Infosystem
2024-09 - 2024-11 | Kolkata
Completed a two-month internship with MERN-stack training and hands-on full-stack web development.
Worked on dynamic web applications across frontend and backend technologies.

CERTIFICATION

Data Science with Python | AICT Pvt. Ltd.

8 June - 8 July 2026 | 60 hours | O grade (above 90%)
Credential: AICTDS221427. Certificate lists Brainware University, CS (MCA).

TECHNICAL SKILLS

Frontend: JavaScript, React, HTML & CSS, Tailwind CSS, Redux Toolkit, React Router, Recharts
Backend & data: Node.js, Express, REST APIs, JWT authentication, Socket.IO, MongoDB, Mongoose
Tools & integrations: Vite, Git, GitHub; Razorpay integration code in KING'S TEA
Data science training: Python, NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn; NLP and TF-IDF in a Fake News Detection training project.

SELECTED PROJECTS

StoreX | Source code

Business management application with inventory, point of sale, sales and purchasing workflows. The Express backend uses tenant-scoped access and MongoDB sessions for related sales records.

React / Node.js / Express / MongoDB / Mongoose / Tailwind CSS

KING'S TEA | Source code

Tea storefront and separate admin portal with catalogue, cart, orders and editable site content. Includes server-priced checkout, COD and Razorpay integration; online payments require merchant configuration.

React / Redux Toolkit / Tailwind CSS / Node.js / Express / MongoDB

SkillBridge | Source code / Backend

Customer, worker and admin interfaces with Redux-managed state. The Express backend handles job applications and reviews; Socket.IO supports messaging, typing indicators and read receipts.

React / Redux Toolkit / React Router / Tailwind CSS / Node.js / Express

TOSIF OS | Source code

MERN portfolio with an admin CMS and JWT-protected personal workspace for goals, tasks, time tracking and learning. Public content and private activity records are stored in MongoDB.

React / Node.js / Express / MongoDB / Mongoose / Tailwind CSS

KING'S TUTOR | Source code

Frontend prototype for student enrolment, tutor discovery and admin lead workflows. Uses React routes, reusable components and a service layer. Interactions use mock data/localStorage; no live backend or payments.

React / JavaScript / Tailwind CSS / React Router / Vite / HTML & CSS
